

## DPI series modified sine wave inverter 300w

Color: Black, Blue, Red

### HOW to FIND a GOOD CAR POWER INVERTER for OUR TRAVEL CHARGER COMPANION?

#### Silent Cooling Fan

The smart cooling fan makes the car power inverter silent when operating, and it runs faster when it gets warmer.

#### Safe Protection

Full-protection with short-circuit, low-voltage, over-charge, over-voltage, over-load, over-temperature protection, built-in fuse.

#### Utility Cord & Cigarette Lighter

Placed random, about 16 inches length cable with cigarette lighter plug since we can reach it to power a laptop in the rear seats.

## Super Compact

Travel-sized design is ideal for use on vacations, work trips, and camping. Featuring universal cigarette lighter plug with a long cable that plugs into almost all vehicle.

### Features:

**【FAST CHARGING】** 300W Inverter with Dual AC outlets for charging the laptop, game console, kindle, TV, DVD players.and 2 USB charging ports (2.1A & 2.1A AUTO) Smart matching suitable current great for fast charging iPad, Smartphone.

**【MORE CONVENIENT】** iPhone-sized design ideal for use on vacations, work trips, and camping. 24-inch cigarette lighter plug makes the power inverter can be plugged into almost any vehicle

**【SAFETY FIRST】** Built-in 40 amps fuse to protect your device. Safe charging design provides protection against, overheating, under and over voltage charging, short-circuiting, overloads, and overcharging

**【QUALITY GUARANTEE】** Durable metal housing provides advanced protection from drops and bumps. Integrated cooling fan helps reduce heat and prevents shortages

**Color: Black, Blue, Red**

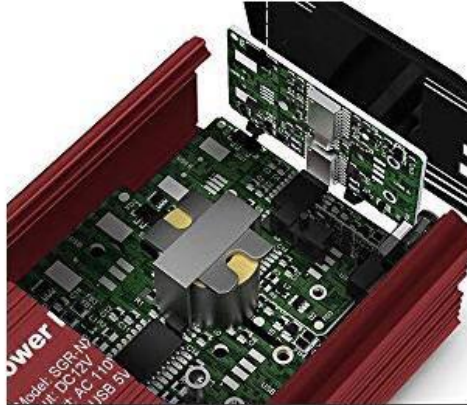

## High Speed Charging

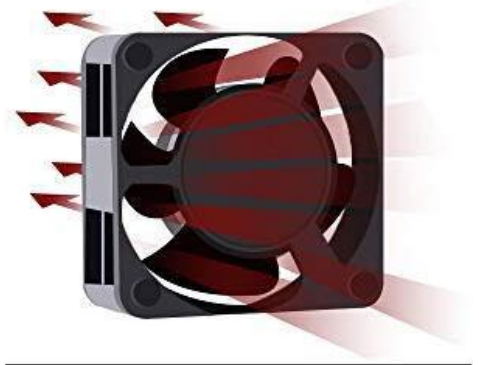

- ✓ Charge up to 4 devices
- ✓ Plug fits almost any vehicles
- ✓ Isolation Voltage Protection
- ✓ Top speed charging
- ✓ Multiprotect Technology
- ✓ High power and wide application

## Multi-Protect

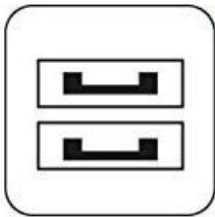

Built-in 40 amps fuse to protect your device. Safe charging design provides protection against

- ✓ Overheating
- ✓ Under and over voltage charging
- ✓ Short circuiting
- ✓ Overloads
- ✓ Overcharging

## Silent Fan

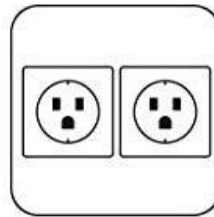

- 1 x Soyond 300W Power Inverter
- 1 x Car Cigarette Plug
- 1 x Pair of Battery Clamps
- 1 x Multi-language Manual

### Dual USB ports

4.2A dual USB ports for quick and easy charging.

USB Output: DC 5V/2.1A+2.1A

### 2 AC outlets

Equipped with 2 AC outlets for charging larger devices such as laptops and tablets

### Silent Fan

The cooling fan makes the car power inverter silent when operating and helps reduce heat, prevents your devices from shortage.

### For Optimal Use

Please use battery clips when using inverter on device over 150W. Please do not leave the power inverter in the ON position while your car is off. For DC12V and Car ONLY, not applied for DC 24V and airplane use. The cooling fan remains on continuously. This means you'll only be able to use it in situations where the car is running. Avoid placing the inverter into sunlight directly or next to heat-sensitive materials to protect inverter from getting too warm. Please understand device wattage usage Caution! Do not use high power electric devices such as hair dryers, electric heaters, curling irons, etc.

Outlets	2	2	2	2	2

## About us:

Cosuper has kept the focus on renewable energy and off-grid systems for more than ten years to provide reliable power products worldwide.

All Cosuper products are designed for the integrated electrical systems. to satisfy the rapidly growing needs of renewable energy and clean power, Cosuper engineers develop reliable power products to let people enjoy clean and continuous power.

Besides offering sine wave power products, Cosuper also has extensive experience on energy solution providing, with full range power products, customers get a variety of systems suggestions and correct configuration to meet the needs. Manufactured in China with high-quality components and qualified by ETL and CE to offer the user with the safe power source in different conditions, Cosuper works closely with

users to design and produce the reliable and safe inverters, inverter chargers and the integrated power systems.
